

**FOR IMMEDIATE RELEASE**

**New Pre-Assembled Blower Package  
Features Upgraded Blower, Quieter Operation**

**Houston, Texas (March 19, 2008)** - A new factory-engineered blower package, designed to be smaller, lighter, quieter, more powerful and more energy efficient, has been introduced by Dresser Roots of Houston, Texas.

The Dresser ROOTS EasyAir X2 is a compact, pre-assembled, skid-mounted blower unit with all piping, valves, and instrumentation in place. Produced for both vacuum and pressure applications, the new package features a powder-coated noise enclosure for durability and quiet operation plus easy access for service / maintenance.

The new X2 is an improved design of the immensely popular EasyAir 8000 blower package which was introduced in 2005, with significant engineering improvements having been incorporated into the design of the new model EasyAir X2.

Roots-designed, the new second-generation, self-contained blower package is available with a wide range of optional equipment and can be specifically designed to meet exact customer requirements.

An extensive distributor and service network provides the best warranty in the industry. For more information about the new EasyAir X2, contact Dresser ROOTS at 877-363-ROOT(S).

###

**About Dresser Roots**

Dresser Roots, a division of Dresser, Inc., is a leading supplier of ROOTS™ rotary positive blowers and centrifugal compressors systems. ROOTS® air and gas moving equipment is used in a wide variety of applications, including wastewater treatment, flue gas desulphurization, petrochemical and chemical processes, and other general industrial applications.

## **About Dresser, Inc.**

Dresser, Inc. is a leader in providing highly engineered infrastructure products for the global energy industry. The company has leading positions in a broad portfolio of products including valves, actuators, meters, switches, regulators, piping products, natural gas-fueled engines, retail fuel dispensers and associated retail point of sale systems and air and gas handling equipment. Leading brand names within the Dresser portfolio include Dresser Wayne® retail fueling systems, Waukesha® natural gas-fired engines, Masoneilan® control valves, Mooney® regulators, Consolidated® pressure relief valves, and ROOTS® blowers and rotary gas meters. It has manufacturing and customer service facilities located strategically worldwide and a sales presence in more than 100 countries.
